Profile

I'm an engineering student with a relentless drive for excellence and innovation. My passion for problem-solving and ambition to make a meaningful impact in the world through cutting-edge technology fuels my journey towards achieving big things in the field. I'm committed to pushing the boundaries of what's possible and leaving a lasting mark in the world of engineering.

Internship Experience

Evoqe | Blockchain Intern   **10th June 2023 - 24th August 2023**

Had an Experience to work as a Blockchain intern
- Made a search engine which is partially decentralized.

Skills

Java | Python | Blockchain | Solidity | | HTML | CSS | Javascript

Projects

Search Engine - aakif.pythonanywhere.com
A Search Engine using Python, HTML and CSS.
– Search engine using Google API.
– Working on it to make it completely decentralized.
– Based on Blockchain.

Earthify

– A SMH(Smart Minds Hackathon) Prototype.

– Initiative to make our environment clean.

– An application which would help us keep our environment sustainable.

Crowdfunding(Ongoing)

- A decentralized platform where we can donate to campaign using digital currencies

Education

Mohamed Sathak A.J College of Engineering , **India**   **2021 - 2025**
- CSE | CGPA: **8.44** (Till 2nd year)

Unity Public School, India   **2009 - 2021**
- *CBSE (Class XII), Aggregate: 84%*
- *CBSE (Class X), Aggregate: 74%*

Academic and Extracurricular Achievements

- Went till Second round in **Smart Minds Hackathon** in 2023.

- Participated in Coding competition conducted by our college.
